WORK EXPERIENCE

iOS App Developer

Cathay United Bank (Cambodia) Plc. (07/2025 - Present)

- Architect and deliver core features, bug fixes, and performance optimizations for the CUBC Merchant App using SwiftUI, Clean Architecture and modern iOS design patterns, owning release branches through to production.
- Partner with cross-border project managers, product owners, designers, backend engineers, and QA across Cambodia and Taiwan to deliver scalable mobile solutions aligned with business requirements.
- Developed AI automation workflows using n8n to streamline business processes, including the automation of weekly business news reporting and monthly Cambodia marketing reports for management team.
- Developed a CI/CD pipeline using Jenkins and Fastlane to automate application deployment, reducing deployment time by 80%.
- Optimized and standardized the code to ensure compliance with Apple's HIG and successfully obtained App Store approval.

TECHNICAL SKILLS

- iOS Development: Swift, SwiftUI, UIKit, iOS SDK, Clean Architecture, MVVM-C, MVC, Coordinator Pattern, Combine, Core Data, Firebase
- Tools & Methodologies: Git (GitHub, Gitea, Git Fork), Jenkins, Fastlane, Docker, n8n, Mantis, Taiga, Agile/Scrum, CI/CD
- Additional Experience: HTML, CSS, Bootstrap, JavaScript, ReactJs, PHP, Laravel, MySQL, Python

PERSONAL PROJECTS

E-Commerce Mobile Application

Tech Stack: Swift, SwiftUI, Laravel, MySQL and PHP.

- Users can browse products, add to cart or wishlist, and use profile settings to upload a profile image and enable dark mode.

Meal Planner Mobile Application

Tech Stack: Swift, UIKit, Firebase.

- This app allows users to explore food options and schedule daily meals, with data stored in Firebase.

COURSES & TRAINING

iOS App Development Professional Training

ADITI Academy (03/2024 - 09/2024)

AI & Data Science

TechPreneur Bootcamp (07/2026 - Present)

EDUCATION

Bachelor of Science in Computer Science | 2021 - 2025

Royal University of Phnom Penh, Phnom Penh City
